train the trainer - pathway to being a certified professional trainer

Our train the trainer courses are aimed at individuals looking to be a certified professional trainer. Imagine delivering training with confidence using skills and techniques associated with very experienced trainers.

Train the Trainer is our speciality. Whether you require a formal qualification to be a trainer, or just need to develop your trainer skills further, we have a course for you.

Delegates tell us they are the best classes they have ever attended, read the testimonials on our website. Many trainers just read PowerPoint slides and this isn't effective training; we will show you the real skills required to facilitate learning to an exceptional standard.

We offer accredited courses that will recognise you as a certified professional trainer. You will develop the skills to engage and motivate. Moreover, you will learn how to structure highly effective training that works. Our courses are held at conveniently located venues throughout the UK. We also offer courses delivered at your location in-house, fully bespoke, tailored to your specific business needs.

OUR COURSES:

Train the Trainer Essentials

Our one day course for individuals who need to know the key elements of effective trainer delivery. On this course, delegates learn the key essentials from structure to highly efficient delivery techniques.

PTT Train the Trainer

Our most popular course, this two day ILM accredited Train the Trainer course is ideal for individuals who are required to deliver training to internal staff or external clients. Participants gain the essential skills and techniques to engage and motivate learners with training that is founded on our 'train not tell' perspective. Delegates have the opportunity to achieve B2 Competent or B1 Highly Competent trainer status during a formal ILM assessment.

Advanced PTT Train the Trainer

A three day ILM accredited Advanced Train the Trainer course that develops more experienced participants. It is ideal for those who have already completed a Train the Trainer course and will build on those skills, taking them to a new level. Delegates have the opportunity to achieve A2 Advanced Practitioner trainer status.

Master Trainer

Our five day ILM accredited course. This premium course provides delegates with the skills and techniques to become an excellent trainer. It is aimed at individuals who need to learn advanced skills and techniques in a very short period and wish to become inspiring leaders in their field. Delegates have the opportunity to achieve A1 Master Trainer status.

Course Design

This two day course provides individuals with the skills to design effective training from start to finish.

Presentation Techniques

A one day course for anyone who delivers presentations to colleagues, clients or other audiences. Participants learn techniques and skills which dramatically improve delivery and help them to give a confident, fluent, engaging performance.
